Report relating to the Transferred Section of the Superior Services (India) Family Pension Fund.

Fort St. George, October 31, 1939.

No. 513

The following notification of the Government of India is republished :—

FINANCE DEPARTMENT.

New Delhi, the 5th October 1939.

No. F.-26 (1)-R. II/39.—The following report by the Government Actuary at the India Office relating to the Transferred Section of the Superior Services (India) Family Pension Fund is published for general information.—

"AG.-4583/39.

GOVERNMENT ACTUARY'S DEPARTMENT
20, GREAT SMITH STREET, LONDON, S.W. 1.
10th July 1939.

THE MOST HON. THE MARQUESS OF ZETLAND,
P.C., G.C.S.I., G.C.I.E.,
Secretary of State for India.
India Office, Whitehall, S.W. 1.

My Lord Marquess,

SUPERIOR SERVICES (INDIA), FAMILY PENSION FUND

Transferred Fund.

1. In my report on the valuation as at 31st March 1937, of the Superior Services (India) Family Pension Fund, I showed that the amount of the Fund applicable to those subscribers and beneficiaries who elected to transfer their interests to the Commissioners in Great Britain was £457,723 17s. 6d.

2. The share of the Fund apportioned to the transferred section was arrived at on the basis of a valuation of the whole Fund on the assumption that the old arrangements under which the balance at credit of the Fund remained in the hands of the Government of India, would continue, and that interest would be credited at the rate of 4 per cent. per annum. Each section of the membership was credited with an appropriate share of the total funds according to age and marital condition and the income of the Transferred Fund represented the aggregate of the shares of the several groups which were separately dealt with in the calculations.

3. In connexion in determining the rates of benefit which the Transferred Fund will be in a position to support with due regard to the apportioned share of each group in the total.

4. The effect, in this connexion, of the rate of interest earned by the Funds has been discussed in previous reports, where it was pointed out that a change in the rate affects the various groups to a different extent according to the status and age of the persons concerned. For example, the effect of a reduction of interest on the value of an aged widow's pension is trifling compared with the corresponding effect in the case of a young subscriber who normally will contribute for a long period and to whom the Fund is under commitments, the fulfilment of which may not begin for many years and which being of the annuity type may not be completed until a further lengthy period has elapsed. A provisional estimate was made in 1936 (based on the 1934 valuation) of the probable reductions which would have to be made in the benefits of the rate of interest were 3 per cent only, a rate which appeared appropriate in view of the high levels at which the market prices of stocks and securities were standing at the time.

5. It is to be noted that the rate to be assumed for present purposes must necessarily be influenced to a very large extent by the yield on the existing investments, the whole of which have been purchased in the last 18 months. The amount of the Fund will grow steadily for many years and new investments will have to be made from time to time so long as the income exceeds the outgo. Although these new investments may be substantial in amount the yield on the existing securities will have a predominant effect on the rate obtained by the Fund as a whole for seven years to come. In the period which has elapsed since the provisional estimates were made markets values have fallen and rates of interest have, in consequence, increased, with the result that it is now clear that a higher rate than 3 per cent may safely be assumed.

6. I have been supplied with a list of securities purchased by the Commissioners on behalf of the Fund. The value of these securities is actually greater than the amount of the Fund as at 31st March 1937, owing to the fact that the income of the Fund since that date has been handed over to the Commissioners for investment and has been substantially greater than the pension payments made. In consideration of the yield given by these investments and of the fact that, under section 273 (5) of the Government of India Act, 1935, the interest or dividends will be exempt from income-tax, I have come to the conclusion, after consultations, that a rate of 3½ per annum may properly be assumed for the purpose of the present investigation. The calculations have, accordingly, been made at that rate. As regards the other elements (mortality, etc.), the basis of calculation is precisely the same as that adopted in the apportionment of the Fund as described in my report, dated 31st January 1939.

7. The following statement shows the result of the valuation of the Transferred Fund at 31st March 1937, at 3½ per cent. interest, and taking account of the original rates of benefit to which the members were entitled under the old conditions:

	£	£
Voluntary Section—		
Present value of immediate pensions	314,900	
Present value of contingent pensions	472,100	787,000
Present value of future contributions		345,100
Net liability		441,900
Compulsory Section—		
Net liability		20,800
Total net liability		462,700
Amount of the Fund		447,723
Deficiency		14,977

In paragraph 7 of my report dated 31st January 1939, on the valuation at 4 per cent. interest of the Fund as a whole, before apportionment, I showed that there was an approximate balance between the actual assets and liabilities, there being a nominal deficiency

of £246. The share of the deficiency applicable to the transferred members was about £185 and the result of the present valuation shows that the effect of the reduction in interest from 4 per cent to 3½ per cent has been to increase this nominal amount to nearly £56,000. The benefits, therefore, must be so adjusted in an equitable manner as to reduce the estimated liabilities of the Fund by this amount at least, in order to eliminate the deficiency.

3. It will be appreciated that it would be undesirable to fix the benefits at such a level that they would be the full equivalent of the total assets without any reserve for contingencies. The scope for adverse fluctuations in the Transferred Fund will be increased since not only have the members been educed but the Fund itself, being invested in marketable securities, may suffer from depreciation and will be liable to fluctuations in value to which the amount at credit of the old Fund, depositied in the hands of the Government of India, with the capital guaranteed, was not susceptible. It is therefore the more necessary to retain some portion of the total fund as a special reserve. Bearing in mind the fact that the basis of valuation has been strengthened in comparison with that on which the original scheme was constructed, I came to the conclusion that if the rates of benefit were fixed at levels slightly below the full rates which could in theory be granted, the aggregate of the small margins thus retained would provide a reasonable safeguard.

4. I have, therefore, ascertained for each group of members the reduction in benefit required, with due regard to the respective shares of the Fund as shown by the detailed calculations made in arriving at the apportionment. The results are discussed in the following paragraphs dealing separately with the compulsory and voluntary sections of the Fund.

Compulsory Section.

10. *New entrants.*—It will be convenient to the first instance to consider the rates of benefit to be granted for the new entrants of the future, although of course, no part of the existing Fund has been set aside for them. In the original basis, it was assumed that the average age at entry into the Fund would be about 23, regard being had to the fact that the entrants would include the members of certain services in which the average age at appointment was relatively high. The actual average age of all the new entrants into the compulsory section since the inception of the Fund has been only 21, and the average was tending to fall in the years 1934–37, indicating that certain of the Services were not providing the proportion of Fund entrants at higher ages which had been anticipated.

I understand that in future membership of the Fund will be confined almost entirely to officers of the Police Service, in which the age at entry appears to be slightly under 21. It would seem appropriate, therefore, to base the revised scale of benefits on the assumption that members in future will join the Fund at that age.

On that assumption, the result of which is to offset to some extent the effect of the reduction in the rate of interest, the net effect on the benefits is to require a reduction of only 5 per cent to be made, if the present scale of contributions be retained.

The normal benefit to the widow of a new entrant will therefore consist of an annual pension of £190 payable during widowhood, together with a gratuity on the death of the subscriber of one year's pension (£190).

The annual pension to an orphan will be—

	£	s.	d.
Under age 8	28	10	0
From age 8 till age 18	42	20	0
From age 18	57	0	0

together with a gratuity on the death of the subscriber of one year's pension at the rate appropriate to the then age of the child as specified above.

11. *Existing members.*—The benefits of existing members of the compulsory section of the Fund who have entered the service since the date of the last valuation, 31st March 1934, can reasonably be fixed on the same level as that for new entrants. Slightly higher rates can be granted to the older members, regard being had to their share of the Fund included in the total amount transferred to the Commissioners, and I am of opinion that a reduction of 2½ per cent on the original scale will be adequate in the case of all compulsory subscribers who were members of the Fund at the date of the last valuation. The benefits to their widows will be on a scale of £195, and the scales for orphans will be:—

	£	s.	d.
Under age 8	29	5	0
From age 8 till age 18	43	17	6
From age 18	58	10	0

Voluntary Section.

12. Special considerations arise when determining the precise extent by which the benefit secured by any particular contract in the Voluntary section should be revised. The position is fundamentally different from that of the compulsory section, in which the Fund provides benefits on a general plan for the widow and children who may be left on the death of a subscriber and where the contributions paid by the individual subscriber (whether or not he is married and has dependents) are assessed on a general plan intended to provide for the liabilities of the section as a whole without regard to the liability in respect of the individual. In the compulsory section, previous to these main and prospective benefits are secured not only for any wife and children at present existing, but also for any wife whom the subscriber may marry and for any children born in the future so long as the subscriber remains a member of the Fund and the rules are complied with. On the other hand, in the Voluntary Section each contract secures provision only for the particular wife or child in respect of whom the contract has been effected, and the contributions paid are related strictly to the specific liability attaching to each contract.

This point is of importance in connexion with the adjustment to be made in consequence of the reduction in the rate of interest in view of the fact that the age of the prospective beneficiary as well as that of the subscriber has a material effect on the result. Since the ages of both the subscriber and the beneficiary have been taken into account in arriving at the contributions paid, it is necessary to follow similar lines in the revision of the benefits.

I came to the conclusion, therefore, that a separate calculation must be made of the prospective benefit to be secured by each transferred voluntary contract, and detailed lists are enclosed showing the results. The reductions range from 4½ per cent in the case of the oldest subscriber whose wife is older than himself, to 1⅝ per cent in the case of a young subscriber whose wife is substantially younger than himself. For an original contract of £200, the revised benefits for these subscribers are £181 and £164 respectively.

Encumbered Pensioners.

13. Taking account, as above, of the shares of the total Transferred Fund appropriated to the several groups of pensioners, the deductions required to be made from the original rates in the case of the encumbent pensioners are as follows:—

Widows—

	Per cent.
Under age 50	3½
Age 50 and under 60	4½
Age 60 and under 70	5½
Age 70 and over	6½

Sons and daughters under age 21.—All ages 3½ per cent.
Daughters till marriage.—All ages 7½ per cent

Liabilities of the Fund under the Revised Scheme.

14. The following statement shows the result of the valuation at 3½ per cent interest of the assets and liabilities of the Fund as at 31st March 1937, on the basis of the revised scales of benefit indicated above.—

	£	£
Voluntary Section—		
Present value of immediate pensions ..	107,000	
Present value of contingent pensions ..	430,000	
		537,000
Present value of future contributions		93,000
Net liability		444,000
Compulsory Section—		
Net liability		10,000
Total net liability		454,000
Amount of the Fund		447,723
Balance, held in reserve for contingencies ..		6,277

The scales of pensions under the revised scheme are thus such as to absorb £450,800, leaving only £6,923 to be held in reserve as a provision against adverse contingencies a small amount in relation to the total liabilities of the Fund.

I am, my Lord Marquess,
Your obedient Servant,
C. S. W. Ezra.[24]

Explanation.—For the purposes of this sub-rule, 'consulting practice' shall mean—

(1) examination in the member's own private consulting room or at any place other than the Government institution in which the member is employed, of patients brought or introduced by a registered practitioner:

Provided that it shall be open to the member to take up the case of a patient who has not his own general practitioner and who wishes to seek medical aid in an emergency even though the patient has not been introduced to him by a registered practitioner,

(2) treatment of patients at the request of or in the presence of a registered practitioner, and

(3) operations in a patient's house or in a nursing home or elsewhere than in the Government institution in which the member is employed, with the intervention of a registered practitioner.

NOTE.—The cost of treatment of a patient after an operation should be included in the original operation fee and the patient handed over to the registered practitioner from the commencement of convalescence.

(ii) A member of the service referred to in clause (i) employed in a place where no other medical practitioner is available may attend as an urgent case if suddenly called on to do so, but such attendance shall be independent of any consideration of fees that might be paid by the parties concerned and shall be without prejudice to the member's regular duties and subject to such instructions as may be issued in that behalf by the Surgeon-General or the Provincial Government. If after attending on any such case, the member finds that the party concerned can pay, he may send a bill for his services. He shall submit to the Provincial Government through the Surgeon-General every month a statement giving particulars of the cases in which this privilege was availed of during the previous month and of the fees realised in each such case and he shall remit to the Provincial Government 5 per cent of the fees so realised.

(iii) Members of the service referred to in clause (i) shall comply with all urgent calls for attendance in labour cases. Where the party concerned is able to pay the cost, a bill may be sent. Particulars of such cases shall be included in the monthly statement prescribed in clause (ii) and 5 per cent of the fees so realised shall also be remitted to the Provincial Government.

(iv) In this sub-rule the expression 'registered practitioner' shall mean a registered private (medical) practitioner within the meaning of the Madras Medical Registration Act, 1914.

(d) Members of the service in class X shall not, as a matter of right, be entitled to engage themselves in private practice but will ordinarily be permitted to do so if such private practice would not in the opinion of the Provincial Government, interfere with the efficient discharge of their official duties:

Provided that the Provincial Government may in the case of any particular officer or class of officers restrict such private practice to such extent as they may think fit."

II

For clause (viii) of sub-rule (i) of rule 16 of the said rules, the following clause shall be substituted, namely:—

"(viii) An officer in this section shall, as regards private practice, be governed by the provisions contained in sub-rules (a), (c) and (e) of rule 13."

16. It must be distinctly understood that the passing of this examination does not give any claim to appointment as a Divisional Accountant, and that applications for appointment should not be addressed to the Principal. The passing of the examination is a necessary qualification, but the establishment of Divisional Accountants is mainly recruited by selection from amongst qualified clerks actually employed on accounts duties in the divisional and subdivisional offices of the Public Works Department or as audit officers. A small number of graduates of Indian Universities and other persons of superior and special qualifications who may have passed this public examination may, however, be appointed direct by the Accountant-General, vide paragraph 251 in Chapter VII of the Auditor-General's Manual of Standing Orders.

17. These rules may at any time be amended or revised by the Auditor-General who reserves to himself the power to grant exemptions from the public examination in very special cases. No general revision of the rules affecting the subjects of the examination or the necessary qualifications of candidates will be enforced until three years have elapsed since the date of such revision.

NOTE 1.—Applications for these rules should be made to the Accountant-General of the province or state in which the candidate lives.

NOTE 2.—The question papers of previous years may be had upon from the officer in charge of the Book Depot, Writers' Buildings, Calcutta, on prepayment of the cost. For price the application should be made to him.

NOTE 3.—All communications to the Bengal Engineering College, should be addressed to the principal, Bengal Engineering College, Botanical Garden, p.o. Howrah.

Madras Commerce Report for the month of September 1939.

The European war must be expected to exercise a profound influence on the economic factors affecting commodities. The demand for some commodities will probably undergo a substantial increase though individual commodities will naturally be affected in varying degrees, and some interference with transport facilities must also be anticipated. Under war conditions, producers of commodities the world over will be in a strong position which should enable them to sell their products on favourable terms without much difficulty. Consumable markets in general will become subject to a greater or less degree of Government control, but though it is certain that every effort will be made to prevent profiteering in respect of vital raw material supplies, it may be necessary for the British authorities to permit prices to rise to a moderate extent to ensure a continuous flow of war materials and foodstuffs in adequate quantities. A few days after the declaration of war, a number of commodities came under the control of the British Ministry of Supply and orders were made under the Emergency Powers Defence Act, 1939, for the control of the supplies and prices of them. For example, the Ministry of Supply has introduced control over transactions in hides and skins and maximum prices have been fixed for various categories of hides and skins, including imported tanned kips. Orders have also been made fixing provisional prices for tea and bringing under control the wholesale and import trade in tea. The outbreak of war in Europe does not appear to have made any impression on the recovery movement in the United States and the economic outlook in that country continues to be favourable.

As compared with the corresponding month of the previous year, exports from the Province of Madras fell in September by 29·2 per cent, but on the other hand imports into the Province rose by 38·4 per cent.

Prices of local cotton and yarn advanced sharply following the outbreak of war. Anticipations of a rise in prices caused considerable speculative business in Indian Mill cloth in the first week of the month, but lack of demand in consuming centres and the withdrawal of credit caused a recession. There was some retail business at the end of the month for the coming Deepavali season. Prices of hides showed a steady upward trend and at the end of September were 1d. to 1½d. per lb. above those ruling at the end of August. Prices of tanned goat skins, especially light weights, advanced considerably whilst values of tanned sheep skins also appreciated. The groundnut market was dull during the greater part of the month and prices underwent little change on balance. The paddy and rice markets were firm throughout the month and prices advanced. The demand for copra and coconut oil increased and prices improved considerably. The tendency of the coir yarn markets was weak in the absence of demand. The Calicut ginger market advanced towards the end of the month as a result of fair European and Indian demand and closed strong. Prices of pepper improved as a result of satisfactory demand during the greater part of the month. Prices of sugar in the Madras market underwent sharp fluctuations, and after advancing considerably in the first week, reacted. The market closed steady with a better tone.

Groundnut.

The market was dull during the first half of the month due to lack of demand from European exporting firms, though prices showed only a slight decline owing to improved local demand. The demand from European exporters showed a slight improvement for a short period thereafter and prices strengthened a little, but reacted again before the close of the month. The average wholesale prices of standard varieties at the main producing centres were as follows:—

Per candy of 531 lb.

31st August 1939—Rs. 24-10-0 to Rs. 29.
29th September 1939—Rs. 24-15-0 to Rs. 26-8-0.

Paddy and Rice.

The failure of rains in the Northern districts and the outbreak of war resulted in a rise in prices of both paddy and rice and markets were firm throughout the month. The average wholesale prices of

standard varieties at the mass producing centres were as follows :—

Indian paddy per bag of 170 lb.

31st August 1939—Rs. 4-0-0 to Rs. 4-14-0.
29th September 1939—Rs. 4-14-0 to Rs. 5-4-0.

Indian rice per bag of 176 lb.

31st August 1939—Rs. 6-9-8 to Rs. 7-7-0.
29th September 1939—Rs. 6-9-8 to Rs. 7-15-0.

Rangoon rice—ordi, broken, *A-1 per bag of 226 lb.*

31st August 1939—Rs. 8-4-0, Madras.
30th September 1939—Rs. 9-4-0, Madras

Calcutta rice (Angaru) boiled per bag of 164 lb.

31st August 1939—Rs. 8-2-0, Madras.
30th September 1939—Rs. 8-12-0, Madras.

Cocoanut Products.

Owing to lack of demand, the market for Gudimdy yarn remained weak throughout the month. The market for Bezpore yarn opened weak, but subsequently improved on a result of moderate European and Indian demand. The Calicut unsoaked coir yarn market was weak. The Cochin coir yarn market remained quiet, but with a somewhat firmer undertone. The demand for copra and cocoanut oil increased and prices showed considerable improvement owing to the strong tendency of groundnut oil and the firmness of Colombo prices.

Cotton

Tinnevelly.—Fresh arrivals from the interior were again on a restricted scale. Stocks of ready cotton in the chief markets were very small at the end of the month. The outbreak of war and the consequent changes in world markets caused local prices to rise rapidly from about Rs. 170 to Rs. 220 per 784 lb, but towards the end of the month, the excitement eased off somewhat as none of the leading buyers evinced any interest and prices receded to about Rs. 205. A fair amount of cotton changed hands amongst dealers and moderate quantities were also bought by some of the local mills.

Cambodia.—Arrivals from the interior almost ceased, stocks in markets at the end of the month amounting to about 7,000 bales. Soon after the outbreak of war, prices for average qualities advanced from about Rs. 225 to Rs. 290 and remained at that level until the end of the month. Very little cotton, however, was bought by the South Indian mills at the enhanced rates and there was not the slightest enquiry from outside the district.

Sugar.

The Madras market opened strong with heavy buying by dealers and the declaration of war witnessed a boom period. Prices shot up in sympathy with other commodities and heetic buying by dealers was witnessed. Fresh levels were reached and the bullish feature continued throughout the first week. It was however, short-lived and the announcement of Government's intention to check profiteering and fix prices resulted in a reaction. Dealers re-entered the market as full sellers at market prices and prices dropped continuously. During the last week of the month, the Bombay market was depressed and prices declined sharply owing to heavy arrivals, pressure of resales by weak holders and withdrawals of Java exporters from the market. The Madras market closed steady with a better tone on Java prices at Bombay improved and prices for forward delivories were quoted at a high premium. The price of Nellikuppam sugar was Rs. 30-4-0 per bag of 1cwt. at the end of September as compared with Rs. 28 at the end of August. The upcountry markets closed steady after witnessing considerable fluctuations.

Hides and Skins.

Tanned hides.—The outbreak of hostilities in Europe was reflected in the market for tanned hides in Madras and while prices remained steady for some days, an upward trend was in evidence later. Prices at the end of September were 1d. to 1½d. above those ruling at the end of August. On about September 6th, the Ministry of Supply in London in conjunction with those connected with the leather industry met and fixed prices for all grades of hides. It was possible for a short time to buy in Madras at these rates, but subsequently the market advanced and was ½d to 1½d. per lb. according to weight and quality, above the fixed rates in London. This rise was partly due to a demand that arose from America where buyers were prepared to pay considerably higher prices than the London market. As a result, business with London was more or less at a stand still as it was understood that control prices were being rigidly enforced. There was a considerable advance in prices of classes such as cow calf, bull calf and buffa on which a control price had not been fixed. Prices on the 30th September were as follows :—

Frames 5½ lb. 10½d ; Frames 6½ lb. 15½d.
Frames 10/12 lb 16d.; Chees 7½ lb. 14½d.

Tanned goat skins.—The public auction for tanned goat skins was due to commence in London on August 28th, but owing to the then undecided condition was postponed for about 10 days. The absence of Continental buyers, Germans especially, brought heavy weights down by about 2d. per lb but lights owing to United Kingdom consumption closed firmer. For about a week after the close of the tanned goat auction, practically no business was transacted and several suppliers in Madras were anxious to take orders at prices ruling at the end of July and throughout August. About the 18th of the month, a sudden influx of orders from London for light weights resulted in prices advancing by 10 per cent in Madras in two days and some hectic buying and selling took place. The demand for light weights continued for another week and prices in Madras improved by another 15 or 25 per cent over August prices, whereas heavy weights advanced only by from 3 to 10 per cent. The demand for light weights continued steadily at a further 5 per cent increase, but suppliers would not accept more orders for light weights unless they could dispose of heavies. At the end of the month, business was still good but rather more difficult, as combined offers of heavies and lights, upon which basis Madras suppliers would only sell, were not accepted by London.

Tanned sheep skins.—At the public auction in London, prices increased by 5d to 9d. per lb all round. As a result, Madras suppliers offered at higher prices and a certain amount of business was put through, but not to the same extent as in the case of tanned goats.

Shipments of hides and skins during September were as follows :—

NOTE.—A detailed list showing the actual quantities in each class lots will be offered for sale will be given to each bidder before the commencement of the sales.

2. The wood has been classified according to the classes noted above. Intending purchasers are advised to inspect in advance, the lots put up for sale, but they must accept the classification made in the depot as final.

3. The various classes have been stored in the sandalwood godown in lots of 10, 15 and 20 tons for convenience, but the lots as exposed will not constitute an actual lot for which bids will be accepted. Each class of wood will be offered for sale separately in lots of 20, 10 or 30 tons or less if convenient, each lots mainly consisting of a certain quantity of the class of wood then being sold. Bids will be per ton of each class of wood.

The bids shall be advanced in multiples of Rs. 5 per ton and not less.

4. The sale will be subject to confirmation by the Conservator of Forests, Salem Circle, who does not bind himself to accept the highest or any bid.

5. Before being allowed to bid, each intending bidder must pay an earnest money deposit of Rs. 1,000. If paid in cash immediately before the sale, this should preferably be in the form of Madras notes for Rs. 1,000 or Rs. 500. A receipted Government treasury chalan for the amount will also be accepted. In the case of intending bidders, who have previously bought sandalwood from the Forest department, a cheque on the Imperial Bank of India for the amount will be accepted, but the discretion to accept such cheques rests entirely with the officer conducting the sale. This amount (the earnest money deposit) will be retained as security for the due fulfilment of the conditions 9 and 10 infra.

6. If two or more persons in partnership attend the sale with the intention of purchasing wood jointly, only one member of the partnership will be recognised for purpose of bidding and the deposit will be accepted in his name.

7. The earnest money deposit of unsuccessful bidders will be returned immediately after the sale is over, and that of successful bidders will be credited towards the first instalment of the purchase price.

8. Each purchaser shall, immediately a lot is knocked down to him, sign his name at the foot of the sale list in the column provided for the purpose, and such signature will be held as an admission on his part of his having purchased that particular lot and of having accepted the conditions of the sale notice.

9 Immediately the sale is over, each purchaser, if his offer for any particular lot has been accepted by the Conservator of Forests, will be furnished with a memorandum showing the total amount due from him. He shall remit 25 per cent of this amount into any of the Government treasuries in the District of North Arcot or the Imperial Bank of India at Vellore or the Reserve Bank of India at Madras, within fifteen days of the confirmation of the sale and another 25 per cent before the 15th January 1940 the balance of 50 per cent less the earnest money deposit referred to in condition 5 supra, being paid on or before 28th February 1940 or against delivery, whichever is earlier. Should any purchaser fail to make the necessary remittances by the due dates the money already remitted will be at liberty to resell the wood in question at the risk of the purchaser who shall be liable for any loss, but shall not participate in any profit which may arise by the resale.

10 After 50 per cent of the entire sale value has been paid to the credit of the Forest department, delivery of the sandalwood shall be made to the purchaser provided that until full payment has been made a quantity of wood equivalent to 25 per cent of the full sale value shall remain unremoved, but paid for.

The delivery will be by full lots at a time and no lot will be delivered by portions.

11. On the purchaser's presenting challans as proof that 50 per cent of the entire sale value has been paid a proportion of the wood purchased will be weighed in his or his agent's presence and the quantity handed over to him as provided for in condition 10 supra. If, however, proof is produced that the entire sale value has been paid, the whole sandalwood purchased will be weighed and handed over. The purchaser must take delivery of and remove the whole of the wood sold to him on or before the 15th March 1940.

Should any excess over the quantity paid for be found in the quantity purchased when weighing at the time of delivery, the excess will be paid for by the purchaser at the rate at which it was originally purchased before effecting removal. If any one purchaser has purchased more than one lot or class and if there is any excess in one lot or class and deficit in the other, when weighing at the time of delivery on a particular day, the value of the deficit noticed calculated on the rate at which the main lot or class was sold will be adjusted towards the value of the excess quantity noticed in the other lot or class as the case may be, and the balance, if any, will also be from the purchaser will be collected before permitting him to remove the quantity delivered during the day. If, however, the net quantity delivered results in a deficit on account of drugs over the recorded quantity at the time of sale, the value of the deficit quantity at the purchased rate will be refunded in due course.

12 The accepted bidders, when deputing their agents to take delivery, must furnish each agent with a power-of-attorney duly stamped and bearing the signatures of the person so deputed. A copy of the power-of-attorney must also be sent to the District Forest Officer by post, with four specimen signatures of the agent. Failing this, delivery may be refused pending verification, in which case the delay will count against the accepted bidder.

13. No further cleaning or classification of sandalwood will be undertaken by the Forest department nor will purchasers be allowed to clean any wood previous to weighment. The classification, cleaning and weighment as determined by the Forest department, must be accepted.

14. After the wood has once been weighed and handed over, if the purchaser fails to remove all the wood within the voidah allowed in clause 11, demurrage will be charged at the rate of Rs. 2 per ton per diem from the last date fixed for delivery until the wood is finally removed.

15. No sandalwood shall be removed from the depot till a licence to remove it signed by the officer of the Forest department, who delivered the wood, shall have been obtained and till every piece of sandalwood that can be stamped bears the department's 'sale hammer' mark.

16 The officer conducting the sale shall be at liberty to stop the sale at any time without giving any reason to the intending purchasers.

17. The wood purchased by each purchaser shall be in the depot at the purchaser's risk from the date of sale (not) it is removed.

18. The purchaser shall bear the cost of taking delivery of sandalwood. The depot contractor will supply the required labour for taking delivery of the wood. No other persons other than those supplied by the contractor will be allowed to enter in the depot premises.

19. Each intending bidder unless specially exempted by the Conservator of Forests, Salem Circle, Salem, on his application made in writing at least fifteen days before the date of sale, must produce a solvency certificate specifying the maximum up to which he is solvent signed by a responsible Revenue Officer of the district in which he resides; and the District Forest Officer holding the sale may refuse to allow any bidder not so exempted to bid beyond the amount guaranteed in such certificates.
